Health Care

This article < https://www.biv.com/news/economy-law-politics/vancouver-coastal-health-slammed-for-routinely-breaking-access-to-information-laws-9502578> (2024-09-10) says that Vancouver Public Health failed to get Freedom of Information requests handled in 30 days (as is required by law). For the requests which took longer than 30 days, the average time to process the request was 104 days.

Wastewater

Wastewater looks like it is (still) slowly going up in Fraser Health, and flattish or down everywhere else.
